ANTITRUST LITIGATION

21-md-3010 (PKC)

PRE-TRIAL ORDER NO. 8

-----x

CASTEL, Senior District Judge:

Through the efforts of Magistrate Judge Anderson of the Eastern District of Virginia, this Court, after considering the written submissions of the parties (ECF 536, 542, 547, 548, 549), and hearing from them orally (ECF 560), entered an Order Regarding Coordination of Discovery (ECF 563). The carefully crafted Order addresses coordination between the Eastern District of Virginia Action and this MDL. It was entered in the context of this Court's November 21, 2022 Order (PTO 5; ECF 394) setting the date for the conclusion of fact discovery of June 28, 2024.

The MDL plaintiffs have now presented the Court with a proposed Order Coordinating discovery in this MDL with discovery in a factually related action in the Eastern District of Texas (ECF 700). Google joins in seeking entry of the proposed Order (ECF 706). The MDL plaintiffs have replied (ECF 707).

Neither side has addressed the impact of the proposed Order on this Court's pre-existing and generous schedule for the completion of fact discovery. The Court does not anticipate extending the date for completion of fact discovery. With 80% of the fact discovery period having passed, discovery in this MDL should be winding down. Now is not the time to start cross-notices of depositions in the action in the Eastern District of Texas.

The Court expresses its appreciation to Judge Jordan and the Special Master in the Texas case.

Application DENIED.

SO ORDERED.

P. Kevin Castel  
United States District Judge
